

# CUSTOMER SUCCESS STORY

Farm-Agricultural Industry

## CHALLENGE:

- Orient main cab line towards value-add processes, and improve delivery time
- Reduce scrap and NVA from unwrapping of parts, and improve materials presentation

## SOLUTION:

- Pull material off-line and kit in carts
- Eliminate lineside scrap
- Improve Class-A quality
- Improve ergonomics and error proofing

## IN THEIR WORDS

*"We engaged with Geolean USA to create space and reduce NVA through the subassembly processes on our main cab line. Kit Carts were integrated to eliminate lineside packaging waste and improve part presentation, which also freed 15 linear feet of lineside space and reduced NVA by 32%."*

*-- satisfied heavy equipment OEM client*

## RESULTS

Productivity	Reduced Space	Inventory	Reduce Scrap
<b>+32%</b>	<b>+18%</b>	<b>-33%</b>	<b>-100%</b>
